

Environmental Policy

Truspoint Solutions Ltd is committed to protecting the environment and reducing the environmental impacts of our operations, which cover cleaning, harvesting, security, and maintenance services.

We recognise that our business activities have direct and indirect environmental effects, and we are dedicated to conducting our business in a sustainable and responsible way. **Policy Objectives**

Our environmental objectives are to:

- Ensure compliance with all applicable environmental legislation, regulations, and codes of practice.
- Integrate environmental considerations into all aspects of our decision-making and business operations.
- Prevent pollution, reduce emissions, and minimise the consumption of natural resources wherever possible.
- Continuously improve our environmental management system and performance.

Key Commitments

1. **Waste Management:** Reduce waste generation at source, promote re-use and recycling, and ensure safe disposal of unavoidable waste. We will work to reduce single-use plastics and unnecessary packaging in our operations.

2. **Energy Efficiency:** Implement measures to reduce energy consumption in offices, cleaning operations, and maintenance activities. We will encourage the use of energy-efficient equipment and technology to lower our carbon footprint.

3. **Water Management:** Use water responsibly, particularly within cleaning and harvesting operations, and adopt practices that minimise wastage and protect local water sources.

4. **Sustainable Harvesting Practices:** Work closely with our clients and staff to promote responsible harvesting methods that protect soil health, reduce waste of produce, and safeguard local biodiversity.

5. **Procurement & Materials:** Give preference to suppliers who demonstrate sustainable practices. Use environmentally friendly cleaning products and responsibly sourced materials for maintenance whenever feasible.

6. **Transport & Logistics:** Minimise environmental impact by optimising transport routes, maintaining vehicles to reduce emissions, and encouraging shared or low-impact travel options for staff where possible.

7. **Training & Awareness:** Provide training to employees and contractors to raise awareness of environmental issues relevant to their work, and to encourage personal responsibility in protecting the environment.

8. **Pollution Prevention:** Ensure safe handling, storage, and disposal of cleaning chemicals, fuels, and other potentially harmful substances, in line with COSHH and other regulatory standards.

9. **Security Operations:** Ensure our security activities are conducted with minimal environmental disruption, avoiding unnecessary energy use and promoting sustainability in patrol operations and equipment use.

10. **Continuous Improvement:** Establish measurable environmental targets, monitor performance, and conduct annual reviews to ensure progress and compliance with best practice standards.

Roles and Responsibilities

- **Directors & Management:** Ensure resources are allocated to implement this policy effectively and that environmental responsibility is integrated into business strategy and operations.

- **Supervisors:** Monitor activities on-site to ensure compliance with environmental practices and support employees in their duties.

- **Employees & Contractors:** Follow company procedures, use resources efficiently, and report any environmental concerns or incidents.

Communication

This policy will be communicated to all employees, contractors, and relevant stakeholders. A copy will be made publicly available to demonstrate our commitment to transparency and environmental stewardship.

Review

This Environmental Policy will be reviewed annually or sooner if significant changes occur in legislation, our business operations, or environmental best practice. Updates will be communicated throughout the organisation to ensure continued effectiveness and relevance.
